

Tenants address international conference

Working together with residents across Europe

A small party of residents and staff from across the group have attended the first tenants conference of TBV Wonen, our partner housing association in Tilburg, in the south of Holland.

Our residents, including Trust board member Pauline Seymour, addressed a seminar about the rising elderly population across Europe, and talked about services we provide here in England.

The party also visited a brand new extra care scheme developed by TBV. Next month we welcome tenants from TBV Wonen to our conference in Tavistock, along with residents from our French partner, Aiguillon Construction.
